

Rajesh Gauswami

Engineering Lead | Tech Lead | AI-First Full Stack Engineer

Node.js • NestJS • TypeScript • React.js • Cloud Architecture • AI-Assisted Engineering

Surat, Gujarat, India | [+91 7878009686](tel:+917878009686) | mr.gauswami@gmail.com

LinkedIn: [linkedin.com/in/rajesh-gauswami-7878009686](https://www.linkedin.com/in/rajesh-gauswami-7878009686)

PROFESSIONAL SUMMARY

Engineering Lead / Tech Lead with **10+** years of experience building scalable **SaaS, Payroll, Healthcare, RFID/IoT, and Enterprise platforms** using **Node.js, NestJS, TypeScript, React.js, AWS, GCP, MongoDB, and MySQL**.

Proven track record of **leading distributed engineering teams, architecting scalable backend systems, and delivering cloud-native products for global organizations**. Experienced in **AI-assisted engineering, system design, microservices, parallel processing, and performance optimization**, with impact across **100+ production improvements, enterprise payment systems, payroll automation, and RFID/IoT platforms**.

CORE SKILLS

Leadership & AI: Technical Leadership, Agile, Mentorship, Code Reviews, Claude, ChatGPT, Cursor, GitHub Copilot, Agentic AI Workflows

Backend & Architecture: Node.js, NestJS, TypeScript, Express.js, REST APIs, Microservices, Distributed Systems, Event-Driven Architecture, System Design

Frontend: React.js, Next.js, ExtJS

Cloud & DevOps: AWS (Lambda, EC2, S3, SQS, SNS), GCP, Docker, Serverless, CI/CD

Database: MongoDB, MySQL, FaunaDB

Engineering: Performance Optimization, Parallel Processing, Authentication (JWT/OAuth), Payment Systems, Payroll Platforms, RFID/IoT, API Integrations

EDUCATION

Master of Computer Application (MCA) – 2016

Gujarat Technical University

Bachelor of Computer Application (BCA) – 2014

Maharaja Krishnakumarsinhji Bhavnagar University

PROFESSIONAL EXPERIENCE

Team Lead

[Deel](#) — Remote, India

Mar 2025 – Present | 1 Year 3 Months

- Leading engineering for **Astute Payroll**, a scalable payroll and workforce management platform.
- Architecting backend systems and APIs using **Node.js, NestJS, TypeScript, and cloud-native architecture**.
- Standardized **AI-assisted engineering workflows** to improve delivery speed, debugging, and code quality.
- Providing technical leadership through mentorship, architecture guidance, and engineering best practices.

Senior Software Engineer | Tech Lead

[Vendavo](#) — Remote, Bengaluru, India

May 2024 – Mar 2025 | 11 Months

- Support to fix on enterprise-grade **Rebate & Channel Management (RCM)** systems for global B2B organizations.
- Designed and implemented **parallel processing workflows** to improve payment execution and scalability.
- Optimized backend systems for rebate calculations, partner payouts, and enterprise transactions.
- Contributed to architecture discussions, debugging, and engineering quality improvements.

Senior Software Engineer (Backend & Platform)

[32Co](#) — Remote, London, UK

Jun 2022 – Mar 2024 | 1 Year 10 Months

- Part of rebuilding cloud-native healthcare platforms using **NestJS, AWS Lambda, Serverless, React.js, and MongoDB**.
- Designed scalable APIs and backend systems supporting clinician-facing applications.
- Led backend architecture, database design, and performance optimization.

Team Lead | Principal Software Engineer

[Spacecode Technologies](#) — Remote, Geneva, Switzerland

Nov 2017 – Jun 2022 | 4 Years 8 Months

- Led engineering teams across **RFID, healthcare, inventory management, and enterprise SaaS platforms**.
- Architected RFID/IoT-enabled systems for **hospital traceability, cold-chain monitoring, and inventory visibility**.
- Delivered scalable applications using **Node.js, React.js, MongoDB, Android, and GCP**.
- Mentored engineers through code reviews, technical guidance, and engineering best practices.

Software Engineer

[Atologist Technologies](#) | [Azilen Technologies](#) — India

May 2016 – Oct 2017 | 1 Year 2 Months

- Developed scalable full-stack applications and backend services.
- Worked on API integrations, database design, and enterprise feature delivery.
